

## GENERAL INFORMATION

**CONDITION PLUS™** is an easy-to-use, multifunctional adjuvant for use with glyphosate and other pesticides. **CONDITION PLUS™** deactivates the hard water ions (Ca, Mg, Fe) allowing the pesticide to perform more effectively. **CONDITION PLUS™** contains real ammonium sulfate (AMS) and a full load of a unique, highly effective nonionic surfactant system. **CONDITION PLUS™** also contains the research and field proven polyacrylamode polymer blend **CONTROL WM™** that gives increased deposition, resulting in less drift potential. This allows more pesticide to reach the desired target. **CONTROL WM™** provides significantly higher retention of spray solution on plant surfaces.

The concentrated all-in-one formulation allows low rates while providing AMS, a superior water conditioning system, surfactant, and drift mitigation adjuvant in one convenient package.

**CONDITION PLUS™** is recommended to be used at 1 to 4 qt/100 gal.

**CONDITION PLUS™** is compatible with all formulations of glyphosate.

# CONDITION PLUS™

## Ammonium Sulfate, Water Conditioners, Drift Mitigation System and Full Load of Surfactant

### INGREDIENTS:

Ammonium Sulfate, Water Conditioning Agents, Nonionic Surfactant Blend, Polyvinyl Polymer (Polyacrylamide) Deposition Aid/Drift Reduction Blend, and Formulation Aids ..... 100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001.

**KEEP OUT OF REACH OF CHILDREN**

NET CONTENT: 1 Gallon

## GARRCO PRODUCTS, INC.
