

# ASSIST™

## Premium Compatibility Agent, Water Conditioner, and Nonionic Surfactant Blend

**ASSIST** is a highly effective, easy-to-use, multi-functional blend of nonionic compatibility agents and surfactants (NIS). Proven in research and field trials, this industry-leading product allows GarrCo **CONTROL**™ to mix with RoundupMax® versions of glyphosate without the need for ammonium sulfate (AMS). **ASSIST** improves the uniformity and compatibility of complex tank-mixtures, and provides all the water conditioning and NIS needed under most conditions.

WITHOUT  
ASSIST™

WITH  
ASSIST™

### FEATURES & BENEFITS:

- **PROVIDES** both surfactants and compatibility agents in a single product
- **CONCENTRATED** and **COST-EFFECTIVE**
- **ELIMINATES** the need to add surfactant under most conditions when applied at 1 qt/100 gal
- **UNIQUE BLEND** enhances the compatibility of a wide range of complex fertilizer and agrochemical blends
- **ALLOWS** the use of **CONTROL** with RoundupMax® versions of glyphosate without the need to add AMS. **ASSIST** provides enhanced compatibility, additional surfactants, water conditioning and better **CONTROL** performance
- **PERFORMS WELL** with herbicides at 1 quart per 100 gallons, but higher rates may provide additional benefit on tough weeds under adverse environmental conditions
- **ALWAYS** follow the label directions to determine correct rates and proper mixing order
