

GENERAL INFORMATION

ASSIST is an effective, easy-to-use multifunctional adjuvant that contains a unique blend of nonionic surfactants (NIS), water conditioners, and compatibility agents.

ASSIST contains a high amount of a premium NIS that can eliminate the need for additional NIS.

ASSIST is an excellent compatibility agent, water conditioner, and surfactant. **ASSIST** improves the performance of **CONTROL** and other polymers by increasing the rate of polymer hydration.

DIRECTIONS

1. Use **ASSIST** at 2 oz to 2 qt/100 gal.
2. For best results, add **ASSIST** to the spray mixture first, unless directed otherwise by the pesticide label or when using as a corrective treatment. Higher rates are usually needed to fix an existing problem.
3. Always agitate when mixing products. Best practice is to continue agitation during application to ensure a uniform spray mixture.

ASSIST™

SURFACTANT, WATER CONDITIONING AND COMPATIBILITY SYSTEM

INGREDIENTS

Proprietary Nonionic Surfactant Blend, Water Conditioners, Compatibility Agents, and Formulation Aids 100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001.
