GENERAL INFORMATION

Orange Peel™ is an orange oil-based cleaner for extremely hard-to-clean residues and stains. It is an all-natural blend of 90% d-Limonene and 10% detergent emulsifiers that penetrate and dissolve grease, oil, tar, gum, rubber marks, carbon, creosote, inks, adhesives, and dirt for easy removal with water. **Orange Peel™** can be used in pesticide applications to enhance efficacy and control odors.

DIRECTIONS

Heavy duty cleaning: When removing hard-to-clean grease, tar, gum, and adhesives, apply **Orange Peel™** at full-strength and allow enough time for it to penetrate the residues. Wipe or rinse off. For easier-to-clean residues, dilute **Orange Peel™** with water. Use 1 to 3 ounces per load with laundry detergents (natural fibers only) for enhanced grease and oil stain removal.

Declogging and maintaining drain lines: Works very well to clean drain lines and grease traps. Pour 8 ounces down drain and wait at least 15 minutes. If drain is still slow, repeat and let sit 15 minutes longer until the drain flows freely.

Deodorizing: Add 4 ounces per gallon of water. Spray or mop onto surface. Controls odors around dumpsters, septic tanks, sewage treatment plants and kennels. Can use as additive to normal carpet cleaners to enhance removal of difficult pet stains and odors. Can also apply by drip method.

Degreasing: For general cleaning and degreasing, use 4 or more ounces per gallon of water. Apply and let stand for several minutes then rinse thoroughly. For engines and machinery, use full strength and let sit for at least five minutes to penetrate. Rinse with water.

WARNING: May be harmful if swallowed.
Causes eye irritation.
May cause respiratory irritation.

INGREDIENTS:

Solvent (CAS #94266-47-4)

Surfactant (N/E)

Colorant (N/E)

PRECAUTIONARY STATEMENTS: Avoid breathing dust/fume/gas/mist/vapours/spray. Wash any exposed body parts thoroughly after handling. Use only outdoors or in a well-ventilated area. Store in a well-ventilated place. Keep container tightly closed. Store locked up. Dispose of contents/container to appropriate waste disposal entity in accordance with local/regional/national/international regulation. **If inhaled:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Dispose of contents/container in accordance with federal, state and/or local regulations. Rinse mouth. **If in eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do - continue rinsing. Call a POISON CENTER or doctor/physician if you feel unwell. If eye irritation persists get medical advice/attention.

FIRST AID: Eye contact: Check for and remove contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately. **Inhalation:** Move exposed person to fresh air. If breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen clothing. Get medical attention immediately. **Ingestion:** Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately.
